Chapter 11 – Abdomen (excluding urinary and reproductive organs)

Many pathological processes result in the formation of adhesions so 'adhesiolysis' is a normal part and parcel of these procedures, and we do not have a specific code for the division of adhesions. We will consider an increase in our fee allowance for an adhesiolysis procedure if the extent of a patient's adhesions is particularly severe and causes significant additional surgery which would not normally be expected. In these circumstances, a full medical report should be supplied for our review.
