

Chapter 10 – Endoscopic gastrointestinal procedures

The fee allowance for endoscopic therapeutic procedures includes an amount for a diagnostic endoscopy. Therefore, this should not be charged as a separate procedure.

The fee allowances for gastroscopy and sigmoidoscopy procedures also include an amount for sedation.

Many pathological processes result in the formation of adhesions so ‘adhesiolysis’ is considered a normal part and parcel of these procedures. Therefore, we do not have a specific code for the division of adhesions. However, we will consider an increase in our fee allowance for an adhesiolysis procedure if the extent of a patient’s adhesions is particularly severe and causes significant additional surgery which would not normally be expected. In these circumstances, a full medical report should be supplied for our review.
