About your underwriting options

You may choose Moratorium or Full Medical Underwriting:

☐ Moratorium underwriting (maximum age of entry is 70)

We exclude any conditions for which you have received medication, advice or treatment or you have experienced symptoms whether the condition has been diagnosed or not in the five years before the start of your cover (pre-existing conditions).

Related conditions (those which are medically considered to be associated with a pre-existing condition) will also not be covered.

However, if you have not had any such symptoms, treatment, medication or advice for pre-existing conditions or any related conditions for a continuous period of 2 (two) years after the start date of your policy, the condition will become eligible for cover under this policy. This period is known as the Moratorium.

☐ Full Medical Underwriting (maximum age of entry is 70)

Benefits will not be payable for the treatment of any disease, illness or injury (whether or not diagnosed) for which the member has received medication, advice or treatment or where the member has experienced symptoms prior to the date of acceptance of this application, or any related condition, unless fully disclosed on this application and accepted by us. Failure to provide full information may lead to the cancellation of the policy at a later date.
